SMART COMPRESSOR CONTROL (SCC)

A REVOLUTIONARY
Patent Pending Solution

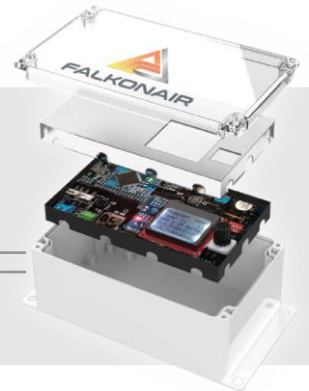

What the SCC does:

- ☑ Converts any 3-Phase fixed speed compressor into variable speed
- ☑ Maintains stable and comfortable humidity in your space
- ☑ Lowers your energy demand charge
- ☑ Controls and monitors the compressor's temperature rather than pressure
- ☑ Achieves maximum capacity at a lower consumption
- ☑ Achieves a healthier running compressor

Gain 20-30% energy efficiency on commercial RTU's & refrigeration systems

Compressor
Temperature sensor to protect your compressor

Refrigeration Pipe
Temperature sensor to control your compressor

- ☑ Install time with programming: approx. 2 hours
- ☑ Can be installed by electricians
- ☑ Immediate results
- ☑ High Return on investment

Reduces heating & cooling
operational costs

Get in Touch

- 01 Take a photo of the compressor and unit's label
- 02 Tell us your energy rate price in kWh
- 03 Tell us how long the system runs for hourly per day
- 04 We will provide you with a quote of your potential savings
